

RESOURCE LIST FOR WESTERN DOLLMAKERS Updated 5 July 2010

The entries in this resource list are a guide to what is available in Western Australia as well as some internet and mail order businesses. The entries were as correct as we could make them at time of publication but it is always wise to ring ahead of a visit to make sure that the business still operates.

Patchwork, quilting and specialty craft shops are good sources for dollmaking supplies. They usually have high quality fabrics, colour coordinated to make it easier to select matching fabrics. Some also stock specialist doll making items.

As you are probably aware, small independent craft shops operate in a very volatile market with competition from large chain stores. Try to support the smaller shops or we will lose the valuable personal service they provide.

If you wish to add a business to the list or update information that may not be current please email us at westerndollmakers@yahoo.com.au

Additional web based businesses are listed on our LINKS section on our website www.westerndollmakers.com
